MY FAMILY

Our family is neither big nor small. It consists of my father, my mother, my brother, and me. My father, a tall man with dark short hair, is 40 years old. He works as a manager at the firm. He likes his work and spends a lot of time there. My mother, a tall and thin woman with big blue eyes and fair hair, is younger than my father, she is 38. My mother is a teacher at the secondary school. She teaches her students foreign languages: German and English. She also spends much time at school, but she finds time to cook, sew, knit, and even to help my brother and me with our homework. My brother is only 10, and he is a schoolboy.

I am 14. I am the student of the college. My college is far from our house, and it takes me half an hour to get there by bus. We are studying different subjects there, but my favourite ones are History and English. As to my appearance, I am slim and slender. My hair is fair, my eyes are blue. I look like my mother. I like to dress in a modern style. Music is my hobby. I am fond of dancing at the disco. I like to buy and read English books too. Twice a week I go to the swimming pool.

We live in Rostov-on-Don, the biggest city not only in the North Caucasus, but in the entire South of Russia. It is located on the right high bank of the Don River. We have a three-room flat in a new block of houses. There is a nice green park near our house, where we spend a lot of our free time. There are many different shops not far from our house. My brother and I often go shopping.

Our family is nice, and everybody is easy to get along with. We take care of each other. We spend much time together. Recently, we have bought a car, and now we often go down to the country to have a rest on weekends. In the evenings, all members of our family watch TV, discuss everyday problems. Sometimes we go to the theatre or to the concert.

OURFLAT.

We live in a comfortable flat in a new house. It is on the fifth floor. It is neither large nor small. There are three rooms in it: a living room, two bedrooms. We have also a kitchen, a bathroom, and a hall. It is a great pity that we have no balcony.

Our living room is large and light because there are two wide windows in it. The walls of the room are blue, the curtains on the windows and the carpet on the floor are of the same colour. There is no much furniture there: a sofa, a table with four chairs, two armchairs, and a TV set in the corner. All the members of our family spend a lot of time there.

Our parents occupy one bedroom which is not large but very cosy. There are two beds, a wardrobe, two armchairs, and a TV set in it. There is a large thick carpet on the floor, and a nice picture on the wall above the beds.

My brother and I share another bedroom. There you can see two beds, a small desk near the window, and two chairs at the desk: for me and my brother. The bookcase is near the door. There are many books in it. Besides, we have many shelves on the walls. There is a musical centre on one of them. We have a lot of friends. And when they come to see us, we invite them into our room. We usually listen to music or play different games.

Our kitchen is big enough. As a rule, we have breakfast and dinner in the kitchen together. Our mother cooks for us, but sometimes we cook some tasty things with my brother for our parents.

The hall of our flat is not narrow. There is a big wardrobe there. And beside it there is a telephone on a small round table.

We like our flat very much.

BOOK COLLECTING

Book collecting is a popular hobby. Many people collect books because they enjoy reading and like to collect things. Private book collections have formed the nucleus of some of the world's most important libraries. Some people have also presented their collections to universities, where the books may be used for study and research. There are many types of book collections, unique or ancient book collections.

Author collections concentrate on the works of a single author. Book collectors especially value editions with the autograph of the author.

Subject collections include books on a particular subject, such as science fiction or books about sports or sportsmen. Some subject collections are vast with thousands of volumes, but most are much smaller.

Title collections consist of as many as possible editions of a single title. The editions which are translated into different languages are also included.

Unique or ancient book collections focus on books that are unusually beautiful, rare, very old, or of an unusual shape and size. These collections may contain books with unique illustrations, with rare printing styles.

Collectors find books for their collections in rare-book shops, antiquarian bookshops, secondhand bookshops, and at jumble-sales.

ТемаРоссия

THE RUSSIAN FEDERATION

The Russian Federation is the largest country in the world. It occupies about one-seventh of the earth's surface. It covers the eastern part of Europe and the northern part of Asia. Its total area is about 17 million square kilometers. The country is washed by 12 seas of 3 oceans: the Pacific, the Arctic and the Atlantic. In the south Russia borders on China, Mongolia, Korea, Kazakhstan, Georgia and Azerbaijan. In the west it borders on Norway, Finland, the Baltic States, Belorussia, the Ukraine. It also has a sea-border with the USA.

There is hardly a country in the world where such a variety of scenery and vegetation can be found. We have steppes in the south, plains and forests in the midland, tundra and taiga in the north, highlands and deserts in the east.

There are two great plains in Russia: the Great Russian Plain and the West Siberian Lowland. There are several mountain chains on the territory of the country: the Urals, the Caucasus, the Altai and others. The largest mountain chain, the Urals, separates Europe from Asia.

There are over two million rivers in Russia. Europe's biggest river, the Volga, flows into the Caspian Sea. The main Siberian rivers – the Ob, the Yenisei and the Lena – flow from the south to the north. The Amur in the Far East flows into the Pacific Ocean.

Russia is rich in beautiful lakes. The world's deepest lake (1,600 metres) is Lake Baikal. It is much smaller than the Baltic Sea, but there is much more water in it than in the Baltic Sea. The water in the lake is so clear that if you look down you can count the stones on the bottom.

Russia has one-sixth of the world's forests. They are concentrated in the European north of the country, in Siberia and in the Far East.

On the vast territory of the country there are various types of climate, from arctic in the north to subtropical in the south. In the middle of the country the climate is temperate and continental.

Russia is very rich in oil, coal, iron ore, natural gas, copper, nickel and other mineral resources.

Russia is a parliamentary republic. The Head of State is the President. The legislative powers are exercised by the Duma.

The capital of Russia is Moscow. It is its largest political, scientific, cultural and industrial centre. It is one of the oldest Russian cities.

Тема 2.3 Великобритания

GREAT BRITAIN

The term Great Britain is used in different meanings. It may indicate a geographical object (the island of Great Britain) or a political object (England, Scotland and Wales in combination). Very often people use it in the meaning of the whole United Kingdom (including Northern Ireland as well) and in this meaning it will be used in this topic.

Geography

Great Britain is situated near the north-west coast of continental Europe. It is separated from the mainland by the North Sea and by the English Channel. The whole country occupies the island of Great Britain, the part of the island of Ireland, and many smaller islands.

Main Cities

London is the capital and most populous city of England and the United Kingdom. The state's government is situated there. The capitals of Scotland, Wales and Northern Ireland are Edinburgh, Cardiff and Belfast. The biggest cities of the UK also include Manchester, Glasgow, and Liverpool.

Government

Great Britain consists of four countries: England, Scotland, Wales, and Northern Ireland. Together, they form one state – the United Kingdom. It is a constitutional monarchy with a parliamentary system.

Presently the monarch is Queen Elizabeth II. She is the head of state, but the biggest political power belongs to the prime minister (currently Theresa May) and Parliament. The latter consists of two houses: the House of Commons and the House of Lords.

Economy

Great Britain is a developed country with a market economy, the world's fifth-largest by nominal GDP (gross domestic product). The most significant industries of Great Britain are the automotive industry, the aerospace industry and the pharmaceutical industry. The agriculture of the UK is highly mechanized and efficient (satisfies 60% of food needs with only 1.6% of the labor force).

Population

Great Britain is the 22nd-most populous country, with the population of 65 million people. They are people from various ethnic groups, including the English, the Scotch, the Welsh, the Irish, the Indian, the Chinese, various African ethnicities etc.

Climate

Great Britain has a temperate climate with plentiful rainfall. The temperature varies from -11 °C to 35 °C.

Тема 2.4.Образование

EDUCATION IN BRITAIN

In England and Wales compulsory school begins at the age of five, but before that age children can go to a nursery school, also called play school. School is compulsory till the children are 16 years old. In Primary School and First School children learn to read and write and the basis of arithmetic. In the higher classes of Primary School (or in Middle School) children learn geography, history, religion and, in some schools, a foreign language. Then children go to the Secondary School.

When students are 16 years old, they may take an exam in various subjects in order to have a qualification. These qualifications can be either G. C. S. E. (General Certificate of Secondary Education) or «0 level» (Ordinary level). After that students can either leave school and start working or continue their studies in the same school as before. If they continue, when they are 18, they have to take further examinations which are necessary for getting into university or college. Some parents choose private schools for their children. They are very expensive but considered to provide a better education and good job opportunities.

In England there are 47 universities, including the Open University which teaches via TV and radio, about 400 colleges and institutes of higher education. The oldest universities in England are Oxford and Cambridge. Generally, universities award two kinds of degrees: the bachelor's degree and the master's degree.

WHAT IS A COMPUTER?

The term computer is used to describe a device made up of a combination of electronic and electromechanical (part electronic and part mechanical) components. Computer has no intelligence by itself and is referred to as hardware. A computer system is a combination of five elements:

Hardware

Software

People

Procedures

Data/information

When one computer system is set up to communicate with another computer system, connectivity becomes the sixth system element. In other words, the manner in

which the various individual systems are connected — for example, by phone lines, microwave transmission, or satellite — is an element of the total computer system. Software is the term used to describe the instructions that tell the hardware how to perform a task. Without software instructions, the hardware doesn't know what to do. People, however, are the most important component of the computer system: they create the computer software instructions and respond to the procedures that those instructions present.

The basic job of the computer is the processing of information. Computers accept information in the form of instruction called a program and characters called data to perform mathematical and logical operations, and then give the results. The data is raw material while information is organized, processed, refined and useful for decision making. Computer is used to convert data into information. Computer is also used to store information in the digital form.

WHAT IS ART?

Art is a way to show one's emotions or communicate one's thoughts. Art is an important part of people's cultural life. There are different forms of art.

Painting, sculpture, photography

Painting is a practice of applying paint or color to a surface. There are a lot of genres and styles. For example, there are landscape, portrait and still life paintings. There are a lot of famous painters, such as Leonardo da Vinci with his Mona Lisa and Rafael with his Sistine Madonna.

Sculpture is one of the plastic arts. The process of work involves carving or modeling. Stone, clay or wood are the most typical materials.

Photography is also a form of art but is characterized by usage of various technical tools. Thanks to technological progress a photographer can create unforgettable images.

Theatre and cinema

Theatre is a form of art where a group of people performs in front of a live audience. The performance is usually based on a real or imagined event. The actors communicate this experience to the public through gestures, songs and words.

Cinema is a relatively new form of art. The action is performed on the screen. Today, cinema is a very popular leisure activity.

Music and architecture

Music has always been an important part of human's life. Different genres of music can be used for relaxation, awakening, and what not. Everyone has heard about Ludwig van Beethoven, Wolfgang Amadeus Mozart and other great composers.

Architectural works are often perceived as a form of art. Architecture is quite versatile. There are a lot of styles, shapes and trends. One can't help admiring the Sagrada Familia by Antoni Gaudi or the Winter Palace by Francesco Rastrelli.

Тема Средства массовой информации

WHAT IS MASS MEDIA?

Mass media can be defined as channels of communication with the help of which information is delivered to the audience.

Despite today's abundance and variety of mass media, not everything can be ranked as such. Thus, for example, libraries or press conferences cannot be attributed to mass media.

Features of mass media

There are 3 main features which characterize mass media. First of all, they must be periodic. Second, they are always aimed at a large audience. Third, there must be a speaker or any other source of information.

Press

Press is considered to be a classic form of mass media. It includes newspapers, magazines, brochures and all other printed publications issued with a specific periodicity. Unfortunately, with the development of Internet and other means of media, press is experiencing difficult times.

Electronic mass media

This category includes radio, television and Internet. Radio is a popular means of media, especially when travelling or driving. Television is, without any doubt, the most effective one with the biggest audience of all. Nowadays, with Internet playing a significant part in our life, mass media is gradually moving into virtual space.

Role of mass media in the life of the society

It is difficult to overestimate the role of mass media in our life. Media influence people's consciousness, creating a certain public opinion. They also play a great role in the formation of a personality. With the help of mass media, it became possible to quickly learn about things that happen around the world.

ENVIRONMENTAL PROBLEMS

Our environment is constantly changing. This is the fact we cannot deny. The way technological progress influences the environment is not the most favourable.

Today humanity is facing numerous environmental problems. If we do not pay attention to these problems right now, we may face even bigger natural disasters in the future.

Pollution

Pollution is one of the biggest problems. Plants and motor vehicles are number one pollutants. Their harmful emissions pollute the environment. Oil spills and acid rains make the World Ocean dirty.

Global warming

Global warming is the result of human activity. It is characterized by rising temperatures of the oceans and earth's surface causing rise in sea levels and melting of polar ice cover. Apart from that, floods, desertification and excessive snow are also signs of global warming.

Climate change

Global warming causes the rise of another serious problem, known as climate change. Climate change can lead to the development of other harmful effects in our life, such as occurrence of new diseases and change in seasons.

Deforestation

Today forests cover about 30% of land. Every year this figure decreases more and more. People clear out new territories for residential buildings, new plants and factories. We must realize that deforestation causes the extinction of animals and plants.

Ozone layer depletion

Ozone layer protects our planet from the sun's harmful rays. Due to atmospheric emissions of the so-called CFC's, the ozone layer depletes. This results in occurrence of the holes in the ozone layer.

Today CFC's are banned in many industries. However, we must remember that if this problem is not taken under control, harmful rays of the sun will easily penetrate the atmosphere. The biggest hole in the ozone layer is located above the Antarctic.
